SYNAGOGUE BOMBINGS A FRAUD

Freedom Of Press Imperilled By New Censorship Drive

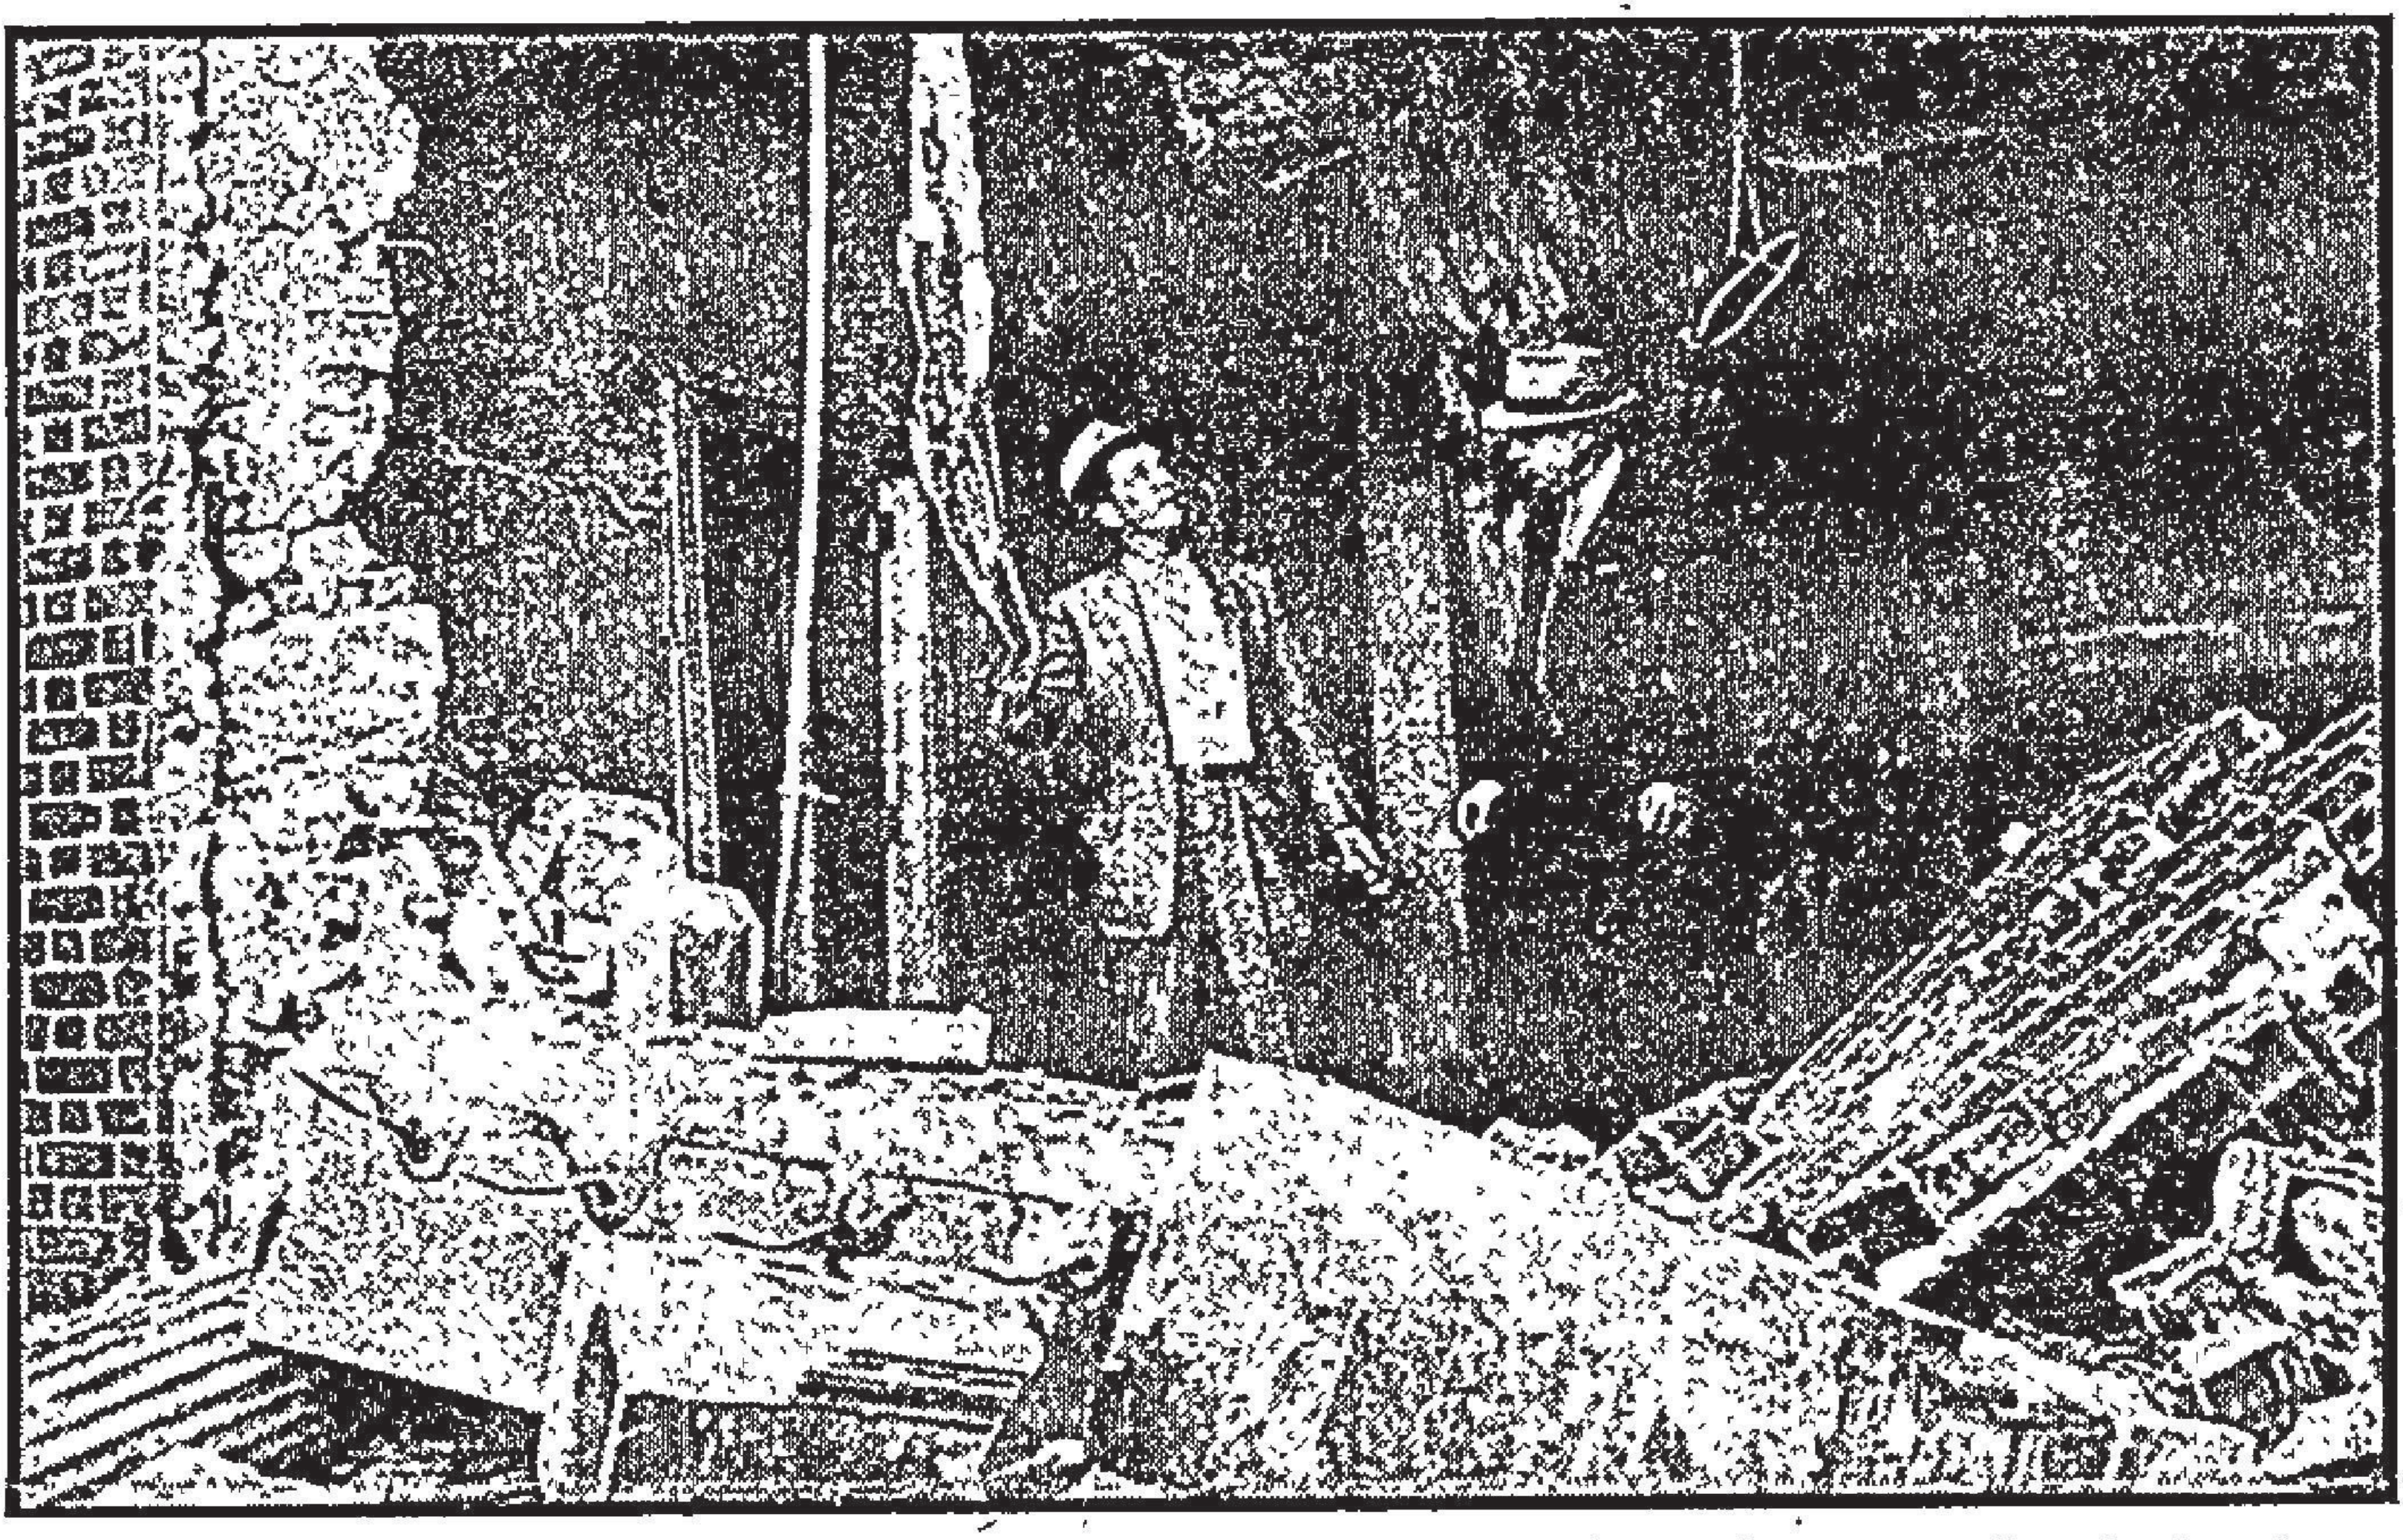
SPECIAL—It has long been the ambition of organized Jewry to circumvent the Bill of Rights in such a way as to deny freedom of press to any publication which dares in any way to criticize Jews. Numerous attempts have been made by Jewish members of Congress to introduce legislation to this end, and the Yiddish Senator from New York, Jacob Javits, has been particularly zealous in his attempts to find some way to stem the flow of "anti-Semitic" literature from the U. S. mails. Invariably these attempts failed, due in large part to the prohibition which the Constitution places against any restriction on the press.

Unfortunately, as an aftermath of the synagogue bombings in the South in recent months—which from the evidence was a put-up job by Jewish extremists—the campaign to suppress "hate" literature has been vastly intensified. (By Jewish definition, of course, any criticism of Jews or Negroes is automatically classified as "hate" material).

The Postal Department, for example, has already taken preliminary steps to assert its authority to bar "anti-Semitic" publications by placing certain restraints upon the newspaper, COMMON SENSE, published in New Jersey. The Postal Department has not actually banned the periodical, but according to COMMON SENSE editor, Conde McGinley, the local post office in Union, N. J.. has received instructions to "hold" each issue of the paper until it is "approved" by officials in Washington. The implication, of course, is that COMMON SENSE or any other Nationalist periodical can be denied access to the mails if it prints anything not to the liking of the integration crowd in Washington . . .

Meanwhile, there is every indication that the forthcoming session of Congress will be under very heavy pressure to pass the kind of discriminatory legislation Jewish pressure groups have been advocating for many years. For one, public opinion has been thoroughly

(Continued Page 4, Column 1)



Pictures like the above, showing the bombed Atlanta Jewish temple, appeared in hundreds of newspapers from coast to coast. Damage, the public was told, amounted to $200,000. In reality it was only $30,000 (all insured) and the blast area was confined to one room, a corridor and a 15 foot section of one wall of the huge building. Actually it turned out to be an extremely lucrative proposition for Atlanta Jews, since they received vast sums in donations from sympathizers all over the country. All in all it was a most profitable bombing.

Non-Existent "Confederate Underground" Blamed For Bombing

SPECIAL—Five months ago (in June) the AMERICAN NATIONALIST ran a front page story entitled: "Senseless Synagogue Bombings Condemned" in which we suggested that the bombing of Jewish synagogues in three widely separated Southern cities appeared to be the work of agents and provocateurs anxious to generate sympathy for Jews. Since that article was written another synagogue; this one in Atlanta, has been dynamited. In view of the massive outcry of public indignation which the latter event inspired it is important to again assess certain pertinent details relating to the situation, for no event within the past decade has colored the thinking of the American people on the Jewish question more profoundly than this.

No matter how you look at it, none of these synagogue bombings make sense if viewed as acts of anti-Semitism. None occurred in cities where racial tension was high. All were in areas far removed from the front line of the integration fight. This is a point well worth noting. A bomb incident against the N.A.A.C.P. in Little Rock or any of a dozen other cities where controversy has erupted over the school integration question might conceivably have been expected. At least it would have made sense. But these were not the targets. Instead, the bombs were set off in cities far removed from the trouble spots—and they were set off against targets which no white segregationists or "anti-Semite" would ever choose . . Whoever selected them did so with the obvious intent of arousing public indignation and bringing discredit to the cause of white supremacy and racial segregation.

This brings us to the question of just who the bombers are. To date their identity is a mystery, but whoever they are it is clear that they were anxious for publicity—though not for themselves, as later developments showed.

The type of publicity they wanted was revealed first of all by their tactic of choosing cities where the leading newspaper is known to be strongly pro-Jewish and pro-integrationist, and therefore more apt to seize upon such an incident as an excuse to attack segregationists and other "bigots." The cities they chose were Nashville, Jacksonville,

(Continued Page 3, Column 1)

Jewish Groups Use Bomb Incident To Confuse Gentiles

ATLANTA—While the AMERICAN NATIONALIST has never condoned the use of violence in any form against Jews, and has in fact been emphatic in its condemnation of the Atlanta synagogue bombing, we are equally opposed to the frame-up of patriots on false charges simply because it is alleged that they are "anti-Semitic." Such a situation exists in Atlanta, Georgia today where five patriots have been arrested at the instigation of the sinister gum-shoe organization known as the Anti-Defamation League of B'nai B'rith (ADL).

The five men in question, all responsble citizens of their community, have been imprisoned on trumped up charges of dynamiting the synagogue there last Oct. 12th. and face possible death sentences if convicted. It goes without saying that if there were any substantial evidence against these men, the AMERICAN NATIONALIST would cheerfully leave them to their fate, because whoever commited the act delivered a severe blow to this cause. As a result of the dynamiting this publication, and every other publication designated as a "hate group" by organized Jewry, has been placed in jeopardy. This paper is therefore obviously in no mood to come to the aid of the individuals responsible for the bombing.

On the other hand there is not a shred of evidence to show that

Reward Offered For Real Synagogue Bombers

NOTE: The editor of this publication Frank L. Britton, hereby offers a reward of $250.00 for information leading to the arrest and conviction of the person or persons responsible for the bombing of the Jewish Temple in Atlanta on Oct. 12th, 1958. An additional reward of $250.00 (making for a total of $500.00) will be posted if the individuals guilty of the bombing are revealed to be Jews, or in the pay of Jews.

LET'S OUTLAW THE ANTI-DEFAMATION LEAGUE OF B'NAI B'RITH !

Jew Fanatics May Be Real Bombers

Atlanta Five Framed To Satisfy B'nai B'rith

(Continued From Page 1)

the five Atlanta patriots had any connection whatever with the incident. One of the five did, it is true, sign a pre-fabricated "confession" (since repudiated), but he did so only after third degree torture methods were applied continuously for more than two days and two nights by Atlanta police, who reportedly twisted the victim's broken arm as an inducement to sign. It is also true that the Atlanta police, under the resourceful supervision of Police Chief Jenkins, produced a "witness" willing to testify that he had heard the Atlanta five "plot" the dynamiting previously, but it should be noted that this same witness had been denounced as a suspected informer and agent several months before the bombing by the very individuals he testified against.

There was one other "witness" produced by Atlanta police to bolster their case—a cell-mate of one of the Atlanta five. This individual, a felony suspect anxious to curry favor with the police, came forward with the helpful information that one of the defendants, George Bright, had admitted being the "ringleader" of the bombers . . .

And so, on the basis of a forced "confession" from one of the Atlanta five, bolstered by the word of a self-styled agent on one hand and by the testimony of a felony suspect on the other, one of the defendants (George Bright) was brought to trial early in December. It resulted in a hung jury and a new trial was immediately scheduled. Meanwhile all five defendants are now free on bond after being confined in the Atlanta jail for many weeks without bail.

So much for the legalities of the case. More interesting, and infinitely more significant, is the story behind the story. Because what the public does not know, and will not be told by the depraved commercial press, is that these five men were arrested to serve a specific propaganda purpose — as sacrificial goats, so to speak. For reasons of its own the Anti-Defamation League of B'nai B'rith is determined that this case shall drag on until after Congress convenes and has a chance to pass legislation against the so-called "anti-Semitic hate groups," which are the real targets. With five men on display for allegedly having bombed the Atlanta temple, it is expected that Congress can be more easily persuaded to pass the desired legislation. Moreover, so long as the Atlanta five remain on the hook, the identity of the real bombers, who in all probability were Jewish fanatics, will be conveniently forgotten.

This is an important consideration, propaganda wise. As indicated elsewhere in this issue, there has been a magical transformation in Southern public opinion since the bombing. Before that, Southern whites were displaying increasing bitterness toward the Jews as it became known that most of the impetus behind the integration drive was supplied by Jews and Jewish organizations—including the Anti-Defamation League. So bitter was this hostility becoming that even Southern Jews were shaken by it, and many openly questioned the wisdom of their national organizations in pushing the integration fight too hard. The Anti-Defamation League itself was under fire from many Jewish groups in the South for bringing the wrath of white gentiles down upon them because of its radical pro-Negro agitation. Obviously, drastic measures were called for if the position of organized Jewry was to be preserved. A synagogue bombing would do the trick—provided, of course, that it could be passed off as the handiwork of white "bigots" and "anti-Semitic hate groups . . ."

In this hate cartoon the rabid, northern-owned ATLANTA CONSTITUTION draws a comparison between the Atlanta Five—and the defunct "Columbian" organization. It was 12 years ago that Atlanta police, working with the New York Jewish terror bund known as the "Anti-Nazi League," railroaded the head of the Columbians (Emory Burke) to a Georgia chain gang . . .

The bombing of the Atlanta synagogue saved the day. Instantly Southern Jewry rallied behind the Anti-Defamation League with renewed fervor. Money flowed so freely into the ADL's treasury (its normal yearly budget exceeds $5,000,000) that the head of the powerful American Jewish Congress, Rabbi Joachim Prinz, was moved to publicly criticize the organization for capitalizing upon the bombing . . .

But not only was the rank and file of Southern Jewry brought back into line by the temple bombing; the gentile public was also profoundly affected. Throughout the South indignation against the Jews and their pro-Negro agitation was instantly replaced by compassion and sympathy. From the standpoint of organized Jewry the Atlanta bombing was a master stroke; in one instant the power of the big national Jewish organizations over rank and file Southern Jews was restored, and at the same instant gentile public opinion toward the Jews underwent a wholesale transformation. And last but certainly not least, the bombing served to discredit those critics of Jewry (the so-called "hate groups") who had been exposing their pro-integration activities. The practical result is that in many areas of the South today you cannot criticize Jewry for any reason without giving rise to the suspicion that you are a potential synagogue bomber . . . All this because of $30,000 worth of bomb damage to a Jewish temple in Atlanta on Oct. 12th . . .

One owns an advertising agency, another is an architectural draftsman while a third works for the state of Georgia as a tax auditor. All were high on the Anti-Defamation League's hate list for one reason: they had dared to expose the Jewish drive to "integrate" the South . . . Dragged from their homes and places of business on phony "vagrancy" charges, the Atlanta Five were subjected to days of brutal "third degree' torture before being brought into court for arraignment on charges of bombing the Atlanta Jewish temple. Unshaven, tired and half blind from loss of sleep, they were there photographed like common criminals by scores of hostile news cameramen . . . (Note: Shown above are 4 of the Atlanta 5).

Needless to say, all these advantages would be instantly cancelled out if the real perpetrators of the Atlanta incident were revealed to be Jews, or Jewish agents. For that reason Jewry, and most particularly the Anti-Defamation League, found it necessary to place the blame upon white "bigots"—even if they had to be framed. This brings us back to the Atlanta five, for there is no doubt at all but that the ADL was primarily instrumental in framing the charges against them.

If any doubt ever did exist on this score, the Anti-Defamation League has dispelled it with its own boasting. In its October issue of the "ADL BULLETIN," for example, the ADL baldly claims that it masterminded the police investigations in Atlanta which resulted in the arrest of the Atlanta five.

"The ADL's Atlanta office," bragged the official ADL organ, **"worked closely with the police; it also maintained close contact with Jewish community leaders in the city. ADL turned over to Atlanta police a list of anti-Semitic extremists in the area. ADL's national office was a focal point for investigative leads and a prime source for the flow of background information on anti-Semitic organizations and individuals who might have a tie-in with the bombing."**

This, mind you, from the official organ of the Anti-Defamation League! And although this was never meant for gentile eyes, its meaning is crystal clear to anyone who can read the English language: the ADL is actually boasting of its sinister spy activities against Americans who dare to express anti-Jewish opinions. With brazen effrontery they not only admit they maintain secret files on all Christian-Americans suspected of anti-Israel or anti-Jewish sentiments, but gloat over the fact that these files are used at strategic moments to harass or imprison them—as they did in Atlanta.

As a matter of fact, the existence of these files explains why ADL agents, who were on the scene of the Atlanta bombing within minutes after it was discovered, were able not only to furnish Atlanta police with the names of known "anti-Semites" in the area, but with **"background information"** on them as well. At an instant's notice, in other words, the ADL was on hand ready and prepared to tell Atlanta police just who should be and who should not be arrested. It was the misfortune of the Atlanta five, all of whom were well known for their patriotic anti-integration activities, to be high on the ADL's hate list . . .

The question still remains, however, as to just why the Atlanta police force, or any other police body, should take orders from or otherwise cooperate with a subversive terror organization such as the ADL. *Something is obviously rotten in Atlanta . . .*

Jews Demand Censorship

(Continued From Page 4)

tility which many Jewish organizations display toward Communism.

Thus, while the voice of Jewry is raised in powerful concert against the so-called "hate press," and in fact is chiefly responsible for demanding its suppression, no similar clamour for the penalizing of the Communist press can be heard from the Jews at all. Like attorney-general Rogers and the rest of the integration crowd, organized Jewry is chiefly concerned with destroying those with whom they disagree; they show little or no interest in suppressing any group (including the Communists) which endorses the same ideological goals as they do . . .

These facts explain better than anything else why criticism of organized Jewry, *of racial integration*, of Communism and of the N.A.A.C.P. is typified as "hate-literature" (and therefore subject to suppression) while the spreading of Communist propaganda is upheld as an exercise of Constitutional liberty . . .

Dynamitings Create Pity For Jews

Evidence Points To Agents Provocateurs

(Continued from Page 1)

Miami and Atlanta.

Having settled on towns notorious for their renegade newspapers, the bombers took the added precaution of phoning either the local press (in Atlanta they phoned the wire services) or the rabbi of the bombed synagogue to proclaim themselves as members of the "Confederate Underground." This had the desired effect, and within hours hundreds of newspapers throughout the nation were decrying the wanton bombings as the work of the "Confederate Underground—which was described as a "hate group" dedicated to the persecution of Negroes and Jews.

Eisenhower himself denounced the dynamiters of the Atlanta Jewish Temple for having disgraced the name of the Confederacy with their act—and dispatched the FBI to investigate the situation. And nowhere did the sense of outrage run stronger than among Southern conservatives, with segregationist newspapers, public officials and white citizens councils all furiously assailing the "Confederate Underground" for bringing discredit to the cause of white supremacy. Southerners everywhere went out of their way to express sympathy for the Jewish "victims," and to disassociate themselves from those responsible for the deed.

Despite the mounting tide of hysteria thus inspired, it soon became evident that those guilty of the bombings had perpetrated a clever hoax, for it was obvious that no such organization as the "Confederate Underground" even existed—or ever had existed. This in itself should have been the tip-off, because it showed that whoever bombed the synagogues were anxious, very anxious, to throw the blame on white Southerners and "anti-Semites" rather than gain publicity for themselves.

By now, however, the avalanche of propaganda had become so overpowering that such details counted for nothing. Bomb scares and threats of bombings were for a while on the front page of every newspaper in America. Organized Jewish pressure groups such as the Anti-Defamation League of B'nai B'rith (ADL) had seized upon the incident as an ideal propaganda weapon to whip up sympathy for Jews, and to make every critic of Jewry appear as a dynamiter of Jewish places of worship.

Moreover, this was an opportunity to discredit not only the "anti-Semitic hate groups," but the cause of white supremacy as well. It was too good a thing to give up, even if Jewish extremists occasionally found it necessary to phone in a few anonymous threats to the synagogues themselves in order to keep the story on the front pages . . .

But the real need was for scapegoats, and in search of these the sinister ADL focused its attention upon Atlanta, where the last and most spectacular bombing had occurred. Their victims were five young men, several of whom had previously been arrested in connection with the picketing of the ATLANTA CONSTITUTION with anti-Jewish placards. Although there was not a scintilla of evidence to connect them with the dynamitings, they were at ADL instigation arrested first for "vagrancy" (some in their own homes) and later charged with the bombings.

In almost any other American city such high handed conduct would have been impossible, but Atlanta is an anomaly. Due in large measure to the influence of the northern-owned, McGill-run ATLANTA CONSTITUTION & JOURNAL, a strong air of pollution pervades the political climate of the city government. Unlike most Southern cities, Negroes wield a strong influence in local politics. Moreover, the mayor (Hartsfield), the city prosecutor (Webb) and police chief (Jenkins) are all fanatic in their hatred of those groups and individuals who have over the years attempted to expose the Jewish leadership of the National Association for the Advancement of Colored People and other race mixing groups. For this and other reasons Atlanta has long been regarded as a graveyard for patriots; as the one town in the South where the police and city officials work hand in hand with organized Jewry to harass and imprison anyone daring to engage in "anti-Semitic" activity.

ALL AMERICANS!

On hand minutes after the bombing was discovered was this ADL agent, A. J. Levin, whose business it is to spy on "anti-Semites" in the Atlanta area. This glorified sketch of Levin appeared in scores of northern newspapers, who praised his gestapo activities.

Significantly, it was in Atlanta 12 years ago that Emory Burke, famed head of the "Columbians," was railroaded to a chain gang on trumped up charges of plotting to use dynamite against Negroes. Later, the Jewish "Anti-Nazi League" in New York City brazenly boasted that its agents had infiltrated the Columbian organization and supplied Atlanta officials with the "evidence" which convicted Burke and destroyed the pioneer Columbian organization. Details of the "Anti-Nazi League's" Atlanta exploit were for years published in the AMERICAN HEBREW by James "Sheldon," a columnist for the AMERICAN HEBREW and an official of the "Anti-Nazi League." In fact, "Sheldon's chief claim to fame was, and is, that he was responsible for sending Burke to a Georgia chain gang . . .

Thus, the collaboration between Atlanta police officials and outside Jewish gestapo organizations is nothing new. The rigged arrest of five Atlanta scapegoats on charges of bombing the synagogue there is a transparent propaganda ruse engineered by the New York controlled Anti-Defamation League of B'nai B'rith in collusion with Atlanta police officials, and no one familiar with the case believes they are guilty . . .

Although too insignificant to be noticed from the street, the bomb damage does look impressive from close up. Here publicity seeking mayor Hartsfield (left) of Atlanta commiserates with rabbi Rothschild over the incident. Later, while the Atlanta Five were still being held incommunicado in the Atlanta jail on framed charges, mayor Hartsfield appeared as a special guest of honor at an Atlanta "Bonds for Israel" dinner to express his undying devotion for Jewry. Incidentally, although more than 50 Atlanta police (and the FBI) were detailed to the case, no effort was apparently made to determine if Jewish fanatics were really responsible for the dynamiting. As a result, the real bombers are still free.

But so long as they do remain under arrest the Anti-Defamation League will have ammunition for its nationwide propaganda campaign . . . The end result is that everywhere, as a consequence of the bombings and the accompanying Jewish agitation, sympathy and pity is being drummed up for the Jews, and everywhere the cause of white supremacy is being blackened and smeared.

That, obviously, is what the individuals who bombed the synagogues set out to achieve in the first place. Certainly no one in possession of these facts would ever argue that anyone except the Jews have benefited propaganda-wise from the bombings, or that anyone except the segregationists and "anti-Semitic hate groups" have suffered . . .

SUMMARY: The plain and brutal implication to be drawn from all this is that the synagogue bombings was the work of Jewish provocateurs. It was, so to speak, a Reichstag fire in reverse. This may on first appearance seem to be a wild—even a fantastic—conclusion, but it is not nearly so wild as was Eisenhower's almost hysterical denunciation of the non-existent "Confederate Underground" for the act.

For Mr. Eisenhower's benefit, and also for the edification of the American people who have been misled by the synthetic barrage of Jewish propaganda, it should be emphasized that U. S. Jewry was in desperate need of a Reichstag fire to salvage its deteriorating position. To appreciate why this is so it must first be remembered that Jews are in disrepute all over the South as a consequence of their activities on behalf of racial integration. To a substantial degree this can be attributed to the activities of a half dozen small Nationalist publications (including the AMERICAN NATIONALIST) who have alerted vast numbers of Southerners to the fact that the self styled "National Association for the Advancement of Colored People" (NAACP) is not a Negro organization, but is headed by a New York Jew by the name of Arthur B. Spingarn.

It was also becoming common knowledge in the South that the May 17, 1954 Supreme Court decision outlawing segregated schools was obtained primarily at the instigation of organized Jewry. An examination of official Supreme Court records (available at any large library) shows that nine of the 15 individuals who signed briefs of "amicus curiae" in support of the NAACP in that case were Jews—and that they represented the nation's most powerful Jewish organizations (ie American Jewish Congress, American Jewish Committee, Anti-Defamation League of B'nai B'rith). As a consequence of these revelations, and with the intensification of the integration struggle, public opinion everywhere in the South began to react against the Jews. People were saying that if it were not for the Jew, there would be no integration controversy . . . No development in American history has aroused more bitterness against organized Jewry than the integration fight.

To salvage their plummeting prestige and to regain their former status of respectability, U. S. Jews obviously needed to break the pattern of anti-Semitism sweeping the South. They needed to discredit their detractors (and particularly the so-called "hate groups" responsible for exposing their pro-integration role) and they needed to regain the sympathy of the white Christian majority. A final consideration, and an important one, was the necessity of solidifying opinion among rank and file Jews themselves, many of whom were in rebellion against the national Jewish organizations for pushing the integration theme too hard.

A drastic move was called for. To serve the desired purpose it had to be something so vicious, so repugnant and so insane that no American in his right mind would condone it. A further requirement: it must be blamed on the "anti-Semites" and white suprem-

(Continued Page 4, Column 1)

Anti-Semites Framed

(Continued From Page 3)

acists. A synagogue bombing, or rather a series of them, would fill the bill nicely. And that, unquestionably, was precisely the scheme adopted. And so one Jewish center after another was dynamited, with the bombers taking care in each case to identify themselves (via telephone) as the "Confederate Underground." As previously noted, the ruse was so effective that even Eisenhower was taken in by it . . .

The tactic was successful beyond the wildest dreams of its perpetrators. Thanks to the bombings. the tide everywhere turned in favor of the Jews. Instead of being despised for their integration agitation, they are now pitied . . . Even more important, the groups and organizations dedicated to exposing the Jewish drive behind the integration campaign are under a cloud, for organized Jewry has succeeded in convincing millions of Americans that anyone who dares to criticize a Jew is working hand in glove with the "Confederate Underground" to dynamite Jewish places of worship . . .

From the standpoint of U. S. Jewry the dynamiting of the synagogues in Atlanta and elsewhere ranks as one of the most successful propaganda victories of the twentieth century . . .

One thing is dead certain: none of the five patriots now under indictment in Atlanta had anything to do with the bombing . . .

Press Report

LOS ANGELES—Illustrative of the way the nation's two major wire services (AP, UPI) utilize their monopoly position to doctor the news was the way both organizations distorted the Atlanta synagogue bombing. Although the bomb damage in reality amounted to only $30,000 (on the word of Hearst columnist, Jim Bishop) both the AP and UPI broadcast the hysterical estimate of $200,000 to member papers—in the process misleading thousands of newspaper editors. Actually, the damage was so slight as to be virtually invisible from the street. The dynamite was set off in a corridor on one side of the temple, destroying one small room and a 15 foot section of the wall of the huge, sprawling building. But the wire services invariably furnished newspapers with only close-up shots of the damage, giving the impression the entire edifice had been levelled . . .

NASHVILLE—John Kasper, famed as the firebrand who set off the Clinton integration riots two years ago, has been sentenced to a six months jail term as an aftermath of the incident. In asking for a conviction the prosecutor assailed Kasper as an "outsider" who had brought strife and discord to the peaceful community. All of which would seem to suggest that Tennessee authorities are jailing the wrong outsiders. It was the New York controlled NAACP and other outside race-mixing groups who forced integration on Clinton and the South—not Kasper. John Kasper, like Paul Revere, merely sounded the alarm . . .

NEW YORK—United Jewish Appeal (UJA), by far the largest Jewish fund raising organization in this country, has set its 1959 goal at $205,000,000.00 at a New York conference—most of it earmarked for Israel, and all of it tax-free. The regular UJA budget of $105,000,000.00 is to be augmented by a special $100,000,000.00 "emergency fund." It is expected that the synagogue bombings in the South, by arousing U. S. Jewry to new heights of fanaticism, will make the fund raising goal considerably easier to achieve.

NEW YORK—LOOK magazine, easily the most blatantly pro-Jewish magazine of national circulation, admits in its Jan. 6th issue that there is little hope of convicting the Atlanta Five for the Atlanta synagogue bombing. "Officials felt that there was little hope of obtaining a conviction," driveled LOOK in a five-page article, "but the indictments proved beneficial to the police . . . The arresting officers, armed with warrants, now had the opportunity to search the homes of the suspects. They found abundant anti-Semitic and anti-Negro literature . . ."

LOS ANGELES—In Los Angeles the Yiddish newspaper, HERITAGE, has been "cited" by the Anti-Defamation League of B'nai B'rith for "exposing" Frank L. Britton in a series of smear articles. The series was inspired by the discovery that the AMERICAN NATIONALIST subscribes to HERITAGE under the nom de plume of "S. Goldstein . . ."

Jews Demand Censorship

(Continued From Page 1)

aroused over the synagogue bombings, which has been represented to the public as the work of "anti-Semites" and "hate groups." For another, the bombings were cleverly timed to coincide with the primary elections. As a result, Jewish propaganda agencies such as the Anti-Defamation League were able, without too much trouble, to exact campaign pledges from many candidates to sponsor or support punitive legislation against the so-called "hate" publications.

It is a foregone conclusion, therefore, that a supreme effort will be made to push through laws to put the Nationalist press out of business when Congress again convenes. To forstall the argument that such legislation is patently illegal and un-Constitutional, Jewish pressure groups are advancing the absurd contention that "anti-Semitic" literature tends to incite violence and unrest, hence should be suppressed to maintain law and order. This, of course, is the same excuse all totalitarian regimes use to silence their critics, but few of our lawmakers are apt to remember that in the present circumstances.

It is ironic to note that even while organized Jewry is pushing its massive propaganda and pressure campaign to deny freedom of the press to its critics, no attempt whatever has been made to interfere with the Communist Party's prerogatives. No one in Washington has questioned the right of any Communist to print or circulate Russian-subsidized propaganda, and no effort has been made to bar their material from the U. S. mails. In fact, many Red publications enjoy second class mailing privileges, which means that for a fraction of a cent (as low as 1/8 of a cent per piece) they can mail their stuff to any place in America (although it would cost you 4c or more for the same mail service). The point is that the Communists not only have free access to the U. S. mails, but are actually permitted to mail at subsidized rates. This, mind you, at a time when the attorney-general and the postmaster-general are exerting every effort to bar pro-American and pro-segregationist literature from the mail under the pretense it is "hate material" which tends to "incite violence" . . . Obviously there must be an explanation.

Actually, there are two basic reasons why no attempt has been made to interfere with Communist propaganda—which incidentally is distributed on a scale vastly greater than anything achieved by the Nationalist publications. First, it must be remembered that the man who will spearhead the integration drive from Washington in the coming months (including the attempt to suppress the so-called "hate" publications) will be attorney-general Wm. Rogers. Mr. Rogers, whom LIFE magazine recently characterized as the "Strategist-In-Chief-For Desegregation" in an 8 page article, is rabidly determined to crush all opposition to integration and is prepared to utilize the entire justice department, including the FBI, to that end if necessary.

In this he is supported 100% by the Communist Party, for although there is no evidence that Rogers is pro-Communist, it cannot be denied that, point for point, his stand on the integration controversy is identical with that advocated by the Communist press.

✓Thus, the Communists are bitter in their hatred of Governor Faubus; so is Mr. Rogers.

✓The Communist press advocates immediate action by all departments of the Federal government to implement the Supreme Court's various integration decrees; so does attorney-general Rogers.

✓The *Communists were fervent* in their demands for the use of Federal troops in Little Rock: Mr. Rogers, on the other hand, is regarded as the architect responsible for the military occupation of the Arkansas capital . . .

✓The Communist Party has, from its very inception, been unequivocally and unconditionally for integration in every walk of American life: at the polls, in public and private housing, in the schools, in sports, in public swimming pools, in restaurants—everywhere. The attorney-general of the U. S. takes precisely the same stand . . .

It goes without saying that Rogers and the Reds have different reasons for wanting integration, but the point is that both want it fervently. And although Mr. Rogers may be slightly embarrassed by this unanimity of opinion, he cannot exactly claim that the Communists are "inciting violence" or peddling "hate literature"—*not* when their viewpoint is so similar to his own. This may or may not explain why the U. S. attorney-general is trying to suppress the so-called "hate" publications, but is making no effort whatever to silence the agents of Moscow.

There is a second reason why the Communists are being given free rein to spread their propaganda even while the Federal government focuses its attention upon ways and means to outlaw the Nationalist press. This is related to the fact that all the major organs of Communist propaganda are operated by Jews. Today, for example, there is only one DAILY Communist newspaper in the U. S.: "Morning Freiheit." It is printed in the Yiddish language. The well known "Daily Worker" has now folded, but its long-time editor in chief was the Jew, John Gates (Israel Regenstrief). On the West Coast the major Communist organ is "People's World," which until last year, along with the "Daily Worker" and "Morning Freiheit," was one of the three existing Communist dailies in the U. S. It is now published as a weekly, but its editor is still the Polish Jew, Al Richmond. And so it goes, ad infinitum. Despite all the propaganda to the contrary, the Commie press in this country is, and always has been, almost entirely a Jewish monopoly. Understandably, therefore, organized Jewry is not particularly anxious to have it suppressed, despite the pretended hos-
